

RACER RESIN / SIDEWAYS REGIONAL SAT/SUN NOV 6th & 7th

SATURDAY NOVEMBER 6TH 2010 RACER RESIN REGIONAL - RULES

CARS : Any Racer Resin brand car, kit or RTR, is allowed. Kits must be complete with all the parts that come in the kit. As new cars are introduced they will become eligible. Any Racer or Slot.it part can be used with exceptions noted below, see "CHASSIS" and "MOTOR" sections for example. If the rules stated on this page do not indicate a part or tuning method IS allowed, it is NOT allowed.

BODY : Bodies must not be modified or cut in any way, exception being thinning the resin for tire clearance. Kit cars must have numbers showing on front and sides of the body. Cars must start each race with all parts intact except for mirrors, wipers and antennas. All cars must start with rear wing in place, if it comes on original model. Bodies can be painted. Bodies must be attached to chassis using provided screws in stock location. If body screws are run loose, tape must be placed over holes in bottom of chassis. Car must have interior, only Racer interiors (Lexan or resin) for that car are allowed. No Slot.it interiors. Windows must remain transparent.

CHASSIS : Racer chassis only with Slot-it motor pods. NO TRACTION MAGNETS. Slot.it spring/magnetic suspensions allowed but only with stock Slot.it springs. Inline & sidewinder motor pods only, standard or offset. Sanding edges of motor pods and chassis for float is legal. No modifications to axle mounts front or rear is permitted. Front axle ride height adjusting blocks must be in place if included on original model. Axle shims and/or stoppers are allowed.

WHEELS AND TIRES : Racer or Slot.it wheels required but F1 wheels are not allowed. The correct inserts for the Racer car must be used but may be painted. Allowed rears: Slot.it SIPT03 / 06 / 17 / 18 & IG2201, IG2086, IG3003, IG4008, IG4009. Slot.it Zero grips or stock Racer tires are required on the front. Rear tires must extend past body less than 1mm. No chemicals may be used on tires.

GUIDE BLADES/BRAID : Any Slot-it or Racer guide blades are allowed. Any manufacture braid and wire can be used-must be attached to guide through Slot-it eyelets and may not be glued or soldered.

MOTOR : Only Slot-it 21,500 RPM motor is allowed - supplied hand-out on race day (returned at conclusion of race). Any Slot.it pinion may be used. One section of tape (hand out on race day) may be added to hold the motor in place with cooling holes opened. No other materials may be added to position or retain the motor in position.

GEARING : Any gear ratio is allowed using Slot.it gears.

WEIGHT : Weight may be added to the inside of the chassis. No weight may be attached to the underside of the chassis.

LIGHTING : May be added (Optional) & If used it must be Slot.it brand.

SUNDAY NOVEMBER 7TH 2010 RACER SIDEWAYS REGIONAL - RULES

ELIGIBLE CARS : Racer Sideways Brand cars SW01, SW01b, SW02, SW03, SW04, SW05, SW06, SW07, SW08 & new as released

BODY : Bodies must not be modified or cut in any way-including wheel wells, EXCEPT: Since Racer has produced a car without the side panels, they can be removed altogether at the spoiler, or trimmed slightly along the bottom for clearance on the banking. Both spoiler and wing must still be in place. Cars must start each race with all parts intact except for mirrors, wipers, antennas. All cars must start with rear wing in place. Bodies can be painted. Simple paint is allowed but all cars must have numbers and realistic race livery. Bodies must be attached to chassis using provided screws in stock location. If body screws are run loose, tape must be placed over holes in bottom of chassis. Windows must remain transparent. Because of sidewinder spur gear clearance a spacer/spacers of a maximum .030 width will be allowed on the rear body mount post. Only Sideways original or Sideways Lexan interiors are allowed. The complete interior must be used and no modification or lightening allowed.

CHASSIS : Racer chassis only with Slot.it motor pods. NO TRACTION MAGNETS. Inline & Sidewinder pods only, standard / offset. Sanding edges of motor pods and chassis for float allowed. No mods to axle mounts front or rear permitted. Front axle ride height adjusting blocks must be in place. Axle shims and/or stoppers allowed. Slot.it magnetic / spring suspension allowed with Slot.it springs

WHEELS AND TIRES : Stock front and rear wheels must be used. For fronts original Sideways or any Slot.it rubber tire may be used. For rears any Slot.it silicone tire except F1 is legal for the intended size wheel. All rear tires to be supplied by hand-out on race day. Rear tires must extend past body less than 1mm. Original inserts must be used but may be painted. No chemicals may be used on tires

GUIDE BLADES/BRAID : Stock guide blade may be replaced by any Slot.it guide. Any brand braid and lead wire can be used but must be attached to guide through Slot.it eyelets and may not be glued or soldered.

MOTOR : Must use handout motor supplied (same rules as Racer Resin above).

GEARING : Any gear ratio is allowed using Slot.it brand gears only.

WEIGHT : Weight may be added to the inside of the chassis (No weight may be attached to the underside of the chassis.)

LIGHTING : May be added (optional) but if used Slot.it brand is required

Free Practice 4:00PM 3 min. heats - Tech Opens 5:00PM
